## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

Due to the complex nature of the claims, no request for an oral election is being made. Please see MPEP 812.01.

PLEASE NOTE: the claims as filed were misnumbered. Pursuant to Rule 126, the claims have been renumbered. Claims 1-10, not claims 1-11, are presented for prosecution on the merits.

#### ***Election/Restriction***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-7, 9, drawn to a compound and pharmaceutical compositions thereof, classified in class 548, subclass 215+.
  - II. Claims 8 and 10, drawn to methods of treating a condition, i.e. fibrotic diseases, classified in class 514, subclass 374.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the process for using the product as claimed can be practiced with another materially different product such as pirfenidone.

Art Unit: 1614

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Claims 8 and 10 are generic to a plurality of disclosed patentably distinct species comprising numerous fibrotic diseases disclosed at pages 11-23 of Applicant's specification. Further, claim 1 is directed to oxazole compounds wherein substituents R1 and R2 may be independent moieties (paragraph 1.); or together form a C6-C10 aromatic fused ring system (paragraph 2); or together form a C5-C7 fused cycloalkyl ring (paragraph 3); or together form a 5 or 6 membered heteroaryl ring (paragraph 4); or together form a 5 to 8 membered heterocycle (paragraph 5). Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed. Specifically, Applicant is requested to elect a single disease to be treated as well as a single compound which falls within either one of paragraphs 1, 2, 3, 4 or 5.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Art Unit: 1614

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
